

PUTR I NURUL ANNISA

xxx-xxx-xxxx | putrinannisa04@gmail.com | linkedin.com/in/putri-nurul-annisa
Cikarang, Bekasi Regency, West Java

Fresh Graduate Bachelor of Science in Information Systems with hands on experience in warehouse digitalization, operational reporting, data validation, system testing, documentation, and cross functional user coordination. Interested in analyst, operations excellence, business process improvement, and digital transformation roles, with strengths in translating operational needs into clear workflows, reliable data, and practical system improvements.

EDUCATION

President University

Bachelor of Science in Information System (3.93/4.00) **Sept 2023 – May 2026**

- Awardee Jababeka Scholarship
- Awardee CHEC Award 2024 | China Harbor Engineering Company
- Finalist Business Plan Competition IDEAS Batch 11 | FEB Universitas Gadjah Mada
- Treasurer | President University Computer and Technology Enthusiast Club

Relevant Course: Business Process Analysis, Information System Analysis and Design, Management Information System, Data Analytics and Visualization Project, Database System, Data Visualization, Machine Learning, and Research Methodology.

PROFESSIONAL EXPERIENCE

Fullstack Developer Intern – DMS Warehouse Department

PT Omron Manufacturing of Indonesia **Sept 2025 – May 2026**

- Supported the development of a Store Digitalization System covering inventory management, stock movement, receiving, order issue, stocktaking, labeling, and reporting.
- Built and improved 45+ operational modules, transforming manual warehouse workflows into structured digital processes and making inventory activities easier to track and manage.
- Implemented data validation, input controls, and standardized reporting to improve transaction accuracy, reduce manual input errors, and support more reliable stock and operational reports.
- Integrated QR code generation and scanning to simplify item identification, location tracking, quantity monitoring, and transaction traceability.
- Conducted end-to-end testing, debugging, user training, and cross functional coordination with QC, Warehouse, and Production teams to ensure the system supported accurate data tracking and deployment readiness.

Internship - Graphic Designer

Hariazone | Remote **Sept 2024 – Dec 2024**

- Handled 3-4 design requests per week while coordinating with team members, meeting deadlines, and maintaining output accuracy.
- Produced campaign assets using Canva, Capcut and Figma while aligning deliverables with brand guidelines and stakeholder requirements.

Team Leader – Buzzter

Economic Survival | President University **Nov 2023 – Jul 2024**

- Led task allocation, team coordination, and performance monitoring for a student business project focused on operational efficiency.
- Supported planning and monthly target tracking while analyzing team performance to improve workflow and business growth.

PROJECT HIGHLIGHT

Warehouse Digitalization System

PT Omron Manufacturing of Indonesia

- A centralized warehouse system created to replace manual inventory processes.
- Covered 45+ modules from receiving, stock movement, order issue, stocktaking, labeling, QR tracking, and reporting.
- Made item location, stock quantity, transaction history, and operational reports easier to monitor.
- Improved workflow visibility and supported more structured inventory data management.

SM4ILS – Smart W4C Integrated Logistics System

PT WasteforChange Alam Indonesia

- Developed a role-based integrated logistics platform to digitalize pickup, vendor, procurement, route execution, and operational monitoring workflows.
- Transformed fragmented coordination through Google Sheets and WhatsApp into a more structured pickup-to-route process with centralized operational data.
- Designed system flows for Customer Service, Admin Operational, Driver, Vendor, Procurement Staff, and IT/System Administrator roles.
- Supported route optimization, vendor document review, procurement workflows, operational monitoring, and data-driven vendor qualification.
- Prepared user guidebook and workflow documentation covering system features, approval processes, role responsibilities, and operational procedures.
- Improved workflow visibility by centralizing logistics information and helping users track requests, approvals, route execution, vendor status, and operational progress more clearly.

Plant Cycle Time Dashboard

PT Kalbio Global Medika (Kalbe group) x President University

- Collaborated in a team to develop a web dashboard that monitors and analyzes plant cycle time across Production, QA, and QC divisions.
- Designed with Python and PostgreSQL to visualize on-track and overdue processes, helping stakeholders detect potential issues early.
- This project demonstrates the ability to apply the same analytical and data visualization principles to monitor productivity metrics at the company, division, and department levels within an organizational development context

Meilan Store - CRUD Shoe Store Management System

PHP Native

- Developed product CRUD, stock management, order search, cart quantity input, invoice preview/print, transaction history, and dashboard summary features for a shoe store workflow.
- Validated input behavior, product/order data consistency, invoice totals, transaction records, and navigation across order, history, and product management screens.
- Tools: PHP Native, HTML, CSS, CRUD workflow, invoice flow validation.

Dashboards Business Performance

Data Visualization of Business Intelligence

- Projects include sales analytics, performance tracking, market segmentation, and trend forecasting.
- These projects demonstrate my ability to turn raw data into insightful visuals that tell a story and help stakeholders make informed decisions.
- Tools: Power BI, Microsoft Excel, Looker Studio.

ORGANIZATIONAL EXPERIENCE

Treasurer | President University Computer and Technology Enthusiast Club — **Sept 2024 – Jul 2025**
Graphic Designer – Youth Harmony | Yayasan Kanker Indonesia, South Jakarta — **Jun 2024**
Volunteer Tutor - Sinesia.id | Serang, Banten — **Sep 2024**
Volunteer Gembira Berbagi - English Gembira | Yayasan Darul Aitam, South Jakarta — **Sep 2024**
Volunteer IMPACTED 1.0 - AIESEC in President University | Bekasi Regency — **Jan 2024**
Committee Graphic Designer - Investment Area 3 | Investment Club PresUniv — **Jun 2025**
Committee PR External – CSGO | BEM Faculty of Computer Science — **Jan – Feb 2025**
Committee PR Internal - President University Fashion Week 2024 | Mr&Ms PresUniv — **Oct - Dec 2024**
Committee Event Organizer - Student Awarding Night 2024 | BEM PresUniv — **Oct - Nov 2024**

SKILL AND CERTIFICATION

- **Office & Reporting Tools:** Microsoft Excel, Google Sheets, Microsoft PowerPoint, Microsoft Word, Power BI, Looker Studio, professional email communication, stakeholder coordination
- **Data & Operations:** Data entry, data cleaning, reporting, documentation, inventory data management, transaction monitoring, process tracking, data validation
- **Technical Skills:** SQL, Python, JavaScript, React.js, Node.js, Express.js, MySQL, PostgreSQL, SQL Server, Git, HTML, CSS
- **Business & Administrative Skills:** Cross-functional coordination, user support, operational support, detail-oriented documentation, problem solving
- **Soft Skills & Languages:** Attention to detail, communication, adaptability, time management, teamwork
- **Certification:**
    - **AMAZON WEB SERVICE – AWS Training Generative AI and Machine Learning**
    - **COURSERA | IBM Data Analytics – Introduction to Data Analytics**
    - **DQLab x UMN – Introduction to Python, SQL, Data Science**
    - **AIESEC in PU – AIESEC Future Leaders Summit 2024**

LANGUAGES

- **Indonesian** - Native proficiency (oral and written)
- **English** - Professional proficiency (oral and written)
